

## Project Cost Calculation Sheet

Not all costs associated with construction are covered by insurance. This calculation sheet is an aid to assist builders in categorizing costs as they pertain to the appropriate policy forms/endorsements and in establishing Total Insured Value. The applicant should always work with their licensed insurance broker to ensure adequate coverage is in place. ODIS Underwriting Inc. assumes no liability for the accuracy of this form.

**A. Costs to Rebuild (Hard Costs) – as covered by the Builders Risk Broad Form:**

All materials (without deduction for depreciation)	\$
Labour	\$
General Contractors margin or a Construction Managers Fee	\$
